Kolkata, West Bengal, India

Computer Science Engineering Student · Software Development · Machine Learning

SUMMARY

Computer Science Engineering student with experience in machine learning, full-stack development, and system design. Skilled in building practical, end-to-end solutions with a focus on clean implementation and real-world usability.

SKILLS

Languages: Python, C, JavaScript

Web: HTML, CSS, Tailwind CSS, Next.js, React

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Databases: MongoDB, Oracle

Tools: Git, GitHub, MetaMask, Solidity

EXPERIENCE

XPMC, employability.life

Nov 2025 – Mar 2026

Trainee Intern — Digital Transformation Service Design

Worked on service design workflows and contributed to structured problem-solving and user-focused digital solutions.

PROJECTS

ZeroShield AI

Cybersecurity Platform

Built a full-stack SOC-style platform simulating real-world threat monitoring with AI-based anomaly detection and attack simulation. Developed an interactive dashboard with logging, alerting, and a response engine, integrating modular APIs for real-time system activity.

Wellness Personas of SNU

Machine Learning Application

Developed a KMeans clustering model to segment users into lifestyle groups and enable behavioral analysis. Built a Streamlit interface to process survey data and generate visual insights for easier interpretation.

BlockVault

Blockchain-Based Lending Prototype

Designed a decentralized lending system simulating on-chain credit profiles using wallet transaction history. Integrated smart contracts with a responsive frontend to enable secure user interaction and transaction flow.

SplitX

Full-Stack Expense Management Application

Built a web application to track group expenses and automate balance settlements. Implemented backend logic with database integration to ensure accurate calculations and real-time updates.

EDUCATION

Sister Nivedita University

2023 – 2027

B.Tech in Computer Science Engineering

CGPA: 8.48

CERTIFICATIONS

Algorithms for Searching, Sorting, and Indexing

Generative AI: Introduction and Applications

ACTIVITIES

LNC Tech Community — Creation Team Lead

2025 – Present

Led a team managing technical content and community posts.

Aperture Alchemist Photography Club — Content Writer

2024 – 2025

Created promotional and event-based content for social media and blogs.
